DARTMOUTH ADVISORY PARTNERS

TECHNICAL SHEET / NETWORKS

Resolve Exchange

The problem finds the right capability.

TYPE	IN THE MACHINE	PUBLISHED
Network platform	Outputs	October 2026

01 / WHAT IT IS

What it is

Resolve Exchange is a governed venue for connecting institutional problems with people and agents equipped to work on them.

TYPE	Network platform
GROUP	Networks
IN THE MACHINE	Outputs
SOLVES	Institutional intelligence, Governed workflows

02 / HOW IT WORKS

How it works

In order. Each step is checked before the next begins.

01	**Defined problem**
02	**Bounded access**
03	**Matched capability**
04	**Reviewed result**

> IN PRACTICE
>
> An institution scopes a recurring problem before sharing access. Work is routed within those boundaries and returned for review.

03 / WHO IT IS FOR, AND HOW IT IS APPLIED

Who it is for, and how it is applied

Who it is for

Institutions framing a problem and specialists bringing a relevant capability.

How it is applied

The network layer of the portfolio. The design brings problem definition, access boundaries and review into the route between an institution and a solver.

How it fits

Problems and capabilities, matched in the open. Resolve Exchange is the network layer of the portfolio: Downforce brings problem origination, Overture and Resolve Exchange into one learning loop.

04 / CONNECTED WORK

Connected work

Resolve Exchange works alongside these systems.

SYSTEM	WHAT IT DOES
Downforce	Turn the right question into capability.
Overture	Authority before action.
TIM	Trustless Idea Matching.
